

PC*MILER® V31

ALK MapData™ features the most comprehensive set of commercial truck restrictions in North America including:

- Over 6.9 million miles of North American roadway
- Over 3 million miles of addressed roads
- Over 51,000 U.S. zip codes and over 850,000 Canadian postal codes
- 48,000 highway/Interstate exit numbers
- 112,604 Standard Point Location Codes (SPLC) to generate distances for rating and freight bill auditing

- Over 9 million commercial truck restrictions
- Nationwide U.S. and Canadian truck-specific street-level maps
- Over 30 hazmat-specific road classes and routing categories including Caustic, Explosive, Flammable, Inhalant, Radioactive
- Truck-specific toll costs by weight and axle for cash and discount toll program transactions for U.S. and Canadian lanes (updated quarterly)
- 13'6" height, 80,000 lb weight, 48' and 53'/102" length, and 96" width restrictions
- Time of Day (ToD) toll calculations to plan the most efficient route day or night for 35 bridges, roads and tunnels

- 8 million Points of Interest (POIs) including phone numbers
- Truck-specific POIs include: truck stops, weigh stations, rest areas, truck washes, LCV lots and CAT weigh scales
- Over 10,944 unique toll paths including range (ticket) and barrier (coin drop) data for 122 authorities in 39 jurisdictions
- Nationwide U.S. toll costs for cash and discount toll program transactions (e.g. E-ZPass, SunPass)
- Bridge and tunnel tolls that differ depending on the direction you approach the toll facility
- One-way tolling to keep operating costs accurate for each leg of the trip
